Week 5 Report

02/27/2023 – 03/05/2023
Client: Dr. Bigelow
Faculty Advisor: Dr. Bigelow

Team Members:

Christian Boughton – Team Member
Daniel Chrisman – Team Member
Ella Knott – Team Member
Lith Almadani – Team Member
Michael Wieland – Team Member

Summary

The overall objective for this week was to begin designing the visual aspects and interactive components of the website.

Past Week Accomplishments

- Sketched the visual aspects of our front-end design with interactive components to take to our client.
- Made a group decision to start with the front end, then add the backend later in the project once the front end is up and running.

Pending Issues

- Acquisition of a hosting platform for the website.

Individual Contributions

Name	Contributions	Hours this week	Hours cumulative
Christian Boughton	Research, planning and design	6	33
Daniel Chrisman	Research, planning and design	6	30
Ella Knott	Research, planning and design	6	29
Lith Almadani	Research, planning and design	6	30
Michael Wieland	Research, planning and design	6	30

Plans for the Upcoming Week

- Create a moc front end displaying the visual design and interactive components, such as drop downs and popups, to bring to our client for approval.
- Meet with IEEE in Coover with ideas of a free way to accomplish the required tasks and find a suitable host platform.
